Deadline for manuscript  
submissions:

**20 October 2023**

### Message from the Guest Editors

Following the success of our first Special Issue "Advanced Materials for Clothing and Textile Engineering", we decided to produce a second one to publish the latest research in the field of clothing and textile engineering.

This second Special Issue, similar to the first, covers a wide range of topics, including (but not limited to) advanced materials for clothing and their properties, the design and computer construction of clothing, the process parameters of textile and clothing manufacturing, textile and clothing production, the principles and applications of joining techniques of clothing using thermal conduction and convection, ultrasonic and high-frequency techniques, wearable computers, conventional and protective clothing, smart textiles and clothing, textile and clothing engineering, and testing and measuring methods in textile and clothing engineering.

We look forward to receiving contributions from your research and knowledge on these new modern topics, as a multidisciplinary approach to these topics is important.

## Editor-in-Chief

### Prof. Dr. Maryam Tabrizian

James McGill Professor,  
Professor of Biomedical  
Engineering, Professor of  
Bioengineering, Professor of  
Experimental Surgery,  
Department of Biomedical  
Engineering, Faculty of  
Medicine/Faculty of Dentistry,  
Duff Medical Science Building,  
3775 University Street, Montreal,  
QC H3A 2B4, Canada

## Message from the Editor-in-Chief

*Materials* (ISSN 1996-1944) was launched in 2008. The journal covers twenty-four topics: biomaterials, energy materials, advanced composites, structure analysis and characterization, porous materials, manufacturing processes and systems, advanced nanomaterials and nanotechnology, smart materials, thin films and interfaces, catalytic materials, carbon materials, materials chemistry, materials physics, optics and photonics, corrosion, construction and building materials, materials simulation and design, electronic materials, advanced and functional ceramics and glasses, metals and alloys, soft matter, polymeric materials, quantum materials, mechanics of materials, general. *Materials* provides a unique opportunity to contribute high quality articles and to take advantage of its readership.

## Author Benefits

**Open Access:**— free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

**High Visibility:** indexed within [Scopus](#), [SCIE \(Web of Science\)](#), [PubMed](#), [PMC](#), [Ei Compendex](#), [CaPlus / SciFinder](#), [Inspec](#), [Astrophysics Data System](#), and other databases.

**Journal Rank:** [JCR - Q1](#) (*Metallurgy & Metallurgical Engineering*) / [CiteScore - Q2](#) (*Condensed Matter Physics*)
